

BEEFSPOTTER

2010 Now Available!

The 2010 BeefSpotter provides detailed map location and contact information for the largest feedyards in the United States. BeefSpotter also includes listings for Auction and Sale Barns and the largest Beef Packers. And, for the first time, the 2010 issue adds contact information for Cattle Washouts around the US.

For over 20 years BeefSpotter has been the standard for up-to-date information about the cattle feeding industry. This comprehensive and valuable data is used by feedyards, cattle haulers, livestock feed companies, animal health companies, and cattle industry trade associations.

Coming in April 2010 is the new comprehensive DairySpotter, combining the top 300 dairies in California and the top 300 dairies in the Southwest under one cover. The 2010 DairySpotter provides the same valuable information for the Dairy Industry as the BeefSpotter supplies for cattle feeding businesses.
